The Mortal Instruments Movie

The Shadowhuntersâ€™touched by angels and charged with protecting innocentsâ€™battle demons and other evil in the bestselling Mortal Instruments series. **City of Bones** When Clary Fray heads out to the Pandemonium Club in New York City, she hardly expects to witness a murder. Much less a murder committed by three teenagers covered with odd markings. This is Claryâ€™s first meeting with the Shadowhunters, warriors dedicated to ridding the earth of demonsâ€™and keeping the odd werewolves and vampires in line. Itâ€™s also her first meeting with gorgeous, golden-haired Jace. Within twenty-four hours Clary is pulled into Jaceâ€™s world with a vengeance, when her mother disappears and Clary herself is attacked by a demon. But why would demons be interested in an ordinary mundane like Clary? And how did she suddenly get the Sight? The Shadowhunters would like to know. . . . **City of Ashes** Clary Fray just wishes that her life would go back to normal. But whatâ€™s normal when youâ€™re a demon-slaying Shadowhunter, your mother is in a magically induced coma, and you can suddenly see Downworlders like werewolves, vampires, and faeries? Clary would love to spend more time with her best friend, Simon. But the Shadowhunters wonâ€™t let her goâ€™especially handsome, infuriating Jace. Claryâ€™s only chance to help her mother is to track down rogue Shadowhunter Valentine, who is probably insane, certainly evilâ€™and also Jaceâ€™s father. When the second of the Mortal Instruments is stolen, the terrifying Inquisitor suspects Jace. Could Jace really be willing to betray everything he believes in to help his father? **City of Glass** To save her motherâ€™s life, Clary travels to the City of Glass, the ancestral home of the Shadowhuntersâ€™never mind that by doing so she is breaking the Law, which could mean death. Even worse, Jace does not want her there, and Simon has been thrown in prison by Shadowhunters who are deeply suspicious of a vampire who can withstand sunlight. Luckily, Clary finds an ally in the mysterious Sebastian, who holds a strange attraction for her. As Valentine musters a demon army, can Downworlders and Shadowhunters put aside their ancient hatred and work together? And can Clary harness her newfound powers to help save them allâ€™whatever the cost? **City of Fallen Angels** The Mortal War is over, and Clary is back in New York, excited about all the possibilities before her. She's training to become a Shadowhunter and to use her unique power. Downworlders and Shadowhunters are at peace at last. Andâ€™most importantly of allâ€™she can finally call Jace her boyfriend. But nothing comes without a price. Someone is murdering Shadowhunters, provoking tensions that could lead to a second, bloody war. Clary's best friend, Simon, can't help her. Everywhere he turns, someone wants him on their sideâ€™along with the power of the curse that's wrecking his life. Not to mention that he's dating two beautiful, dangerous girlsâ€™neither of whom knows about the other. When Jace begins to pull away from her without explaining why, Clary is forced to delve into the heart of a mystery whose solution reveals her worst nightmare: She herself has set in motion a terrible chain of events that could lead to her losing everything she loves. Even Jace.

If you haven't read this yet, purchase it because you can read it over and over again without getting bored of the witty sarcastic lines and the romance that gives these books an entirely new edge. ...more

Some people will love these books and that is fine. I'm on book four now and it is only because I hate not finishing a story that I've continued. And because I had apparently already bought the set.

The series reads like a story written by a 14 year old girl who wants to be a writer when she grows up. The plotting, the structure, the strong Mary Sue of the lead female character, there are some interesting ideas but nothing seems well thought out or at minimum well planned out.

In terms of writing though, I would reread Twilight before reading this or suggesting it to someone.

Wow. This series had me hooked from the first. It mingled regular humans, vampires, werewolves, demons and a new breed of humans trained for a life of supernatural war, known as Shadowhunters. Quotes were added from literature of old, to Biblical phrases and current authors.

Then there is Simon, a shy boy, whose first love and best friend is Clary Fray, and who is devotedly Jewish. Early on, he is turned a vampire and spends a while adapting to his new life amid Clary's new friends in the Shadowhunter world.

Some demons that are hunted are simply your average pests, of which the world must be rid. But then there are other, Greater Demons-Eidolon kind or Lilith, one of the longest living demons known.

Fate and fantasy interlock and various perils make the determined group ask this question over and over: What does this life require me to do for those I love? ...more

The Mortal Instruments City Of Bones Full Movie

<3!

i just fell in love with this book! The whole shadowhunters thing was awesome (can't wait for the movie to come out).

Every charatcer was great, like Jace the good looking boy, Isabelle the pretty mean girl (she's not tht mean) nd her brother Alec who is the quiet guy with his cruch on Jace then Clary nd Simon i read every single book (my best friend read them all before nd she spoils everyting! even tho i love her) but the last book...

SPOILER!!!!

in the last book Jace is now evil becuz he is <3!

SPOILER!!!!

in the last book Jace is now evil becuz he is bonded with Clary's real brother Sebastian(read the books to find out, it's in book 3 tht says everything)so Jace goes to her nd kinda almost makes her go with him nd Sebastian to do some evil plan. Clary misses Jace lik crazy nd wants to hav some alone time with him even tho he is evil but needs to find out about the evil plan so she can tell everyone (her nd simon hav this ring thing nd they can tlk to each other with their thoughts) but then she find out how evil her brother sebastian really is nd tht the real Jace is still in there, somewhere. You also find out more about what's going on with Alec nd Isabelle's love life. Like Alec has problems with Magnus's immortality nd Isabelle nd Simon are getting all cozy with each other ;). But what the gross thing was is tht Sebastian nd Clary had a fight scene where he was all lik

"You nd i need to rule together blah blah blah"

nd he kissed her!! Gross. which is funny becuz in the third book she accidently kissed him think he was someone else nd when Clary found out tht Jace wasn't her borther but Sebatian(tht's not his real name for the mortal insturment fans u kno), Simon had to point out the she kissed her real brother. -_- but Sebatian is just like his crazy evil dad (who is dead) nd wants to do other insane things like making evil shadowhunters nd stuff

i can't wait for the last book city of heavenly fire (i think thts how u spell it)

plus the clockwork seris too!

In my point of view Cassandra Claire is one of the best righter I have ever encountered. Her books are amazing not just the mortal instrument books but all of her books. The focus in the book changed as it went on it would sometimes focus on one character and there story and then it would switch giving you an entirely different perspective on the goings on. It switches a lot in the more resent books eg city of fallen angles and city of lost souls

The plot of the story was amazing the plot twists and turns in the most unexpected ways it amazes me that Cassandra can think of interesting and unique situations that you would never see coming. If you are ever considering reading these books. Don't hesitate read them and I can guarantee you will love them as much as I do. ...more

let me just say that i love this series more than any books i have read. Cassandra did an excellent job with the personalities of the characters and had an amazing imagination and very detailed. It was great how she put all different people into one situation. I love how she wrote the twist and turns that took your breath away. This series gave me more imagination and a passion for reading. I also love Jace to pieces and love Alec and Magnus. I also love the fact that she put this into the real world let me just say that i love this series more than any books i have read. I loved this series. The first three books were amazing but I know some people feel that it dragged on with the 6 books. The fourth one was okay, and the last two were great. I am tired of seeing all the series I read be compared to twilight, and this is one of them. You can't compare them, and I don't even see any similarity. Since I started reading more in January, I haven't found a series I didn't like. But I guess some people are very picky with what they like, but I'm pretty simple. This is I loved this series. If I were 12, I would give this probably 4 or 5 stars. Plot is really good but cheesy teeny bits in between made me cringe at times and giddy at other times. The way I would describe this in short is "True Blood for teens." Or Buffy meets Twilight with less vampires...That said, I'm currently rereading it until I'm ready to read my next John Mayberry novel!

I actually read the books separately, but who wants to review all of them? They're actually sort of fun kitchen-sink urban fantasy, if you can get around the horribly creepy main romance, and the sort of pathetic 'main' character.
