The Dark Tower: The Gunslinger - Evil Ground #1

By Robin Furth

The Dark Tower Series

La serie a fumetti si prende una pausa dalla storia principale per raccontare un flashback dentro a un sogno

The Dark Tower Movie

Good things about this issue:

1. Illustrations were interesting in the first half or so pages;
2. Cuthbert and original ka-tet were involved, and I'm always happy to greet them with a wide grin on my face.

Bad things: well, basically everything else.

The story arc isn't quite an arc in itself, which meets the writer's idea of a deja vu or a dream-like memory. You know, when you wake up from a day-dream and you have a general idea of what you just thought of, but you can't construct a story based o

The story arc isn't quite an arc in itself, which meets the writer's idea of a deja vu or a dream-like memory. You know, when you wake up from a day-dream and you have a general idea of what you just thought of, but you can't construct a story based on that knowledge. Seems like Robin Furth hasn't really even tried to construct any story at all - whatever happens is somehow.. generic. The phrases were used times and times before, the characters are like flat images of themselves - as if trying to act, to resemble those we've come to know from the earlier graphic novels and books yet failing miserably, and whatever happens is pretty much a repetition of some scenes we've already seen before.

I'm really hoping that whatever issues are published next are better, otherwise there's no much sense in wasting time on these graphic novels anymore. And they were so good once! ...more

The man in black fled across the desert and the gunslinger followed.

If I ever see this line in any Dark Tower graphic novels AGAIN, I'll probably kill myself. It's really sad to see Robin Furth and co dragging the series by abusing one of my favourite lines.

The Dark Tower: The Gunslinger - Evil Ground #1

Evil Ground #1 is too sloppy. First, Roland would NEVER sleep near devil grass. He would explore his surroundings before going to sleep: that stone circle is just like 20 meters away from the shelter. His sleep is NEVER deep (and again, that damn devil grass). Killing a rabbit for dinner is so used up. Another encounter with Farson's forces? It's getting old! And HELLO! Am I in a parallel universe where Roland and Alain are making jokes while Cuthbert comes up with the lamest phrases ever?

There's still part 2 of Evil Ground but I can already see there's nothing new here. Why not continue with The Drawing of the Three instead of this useless old storyline? ...more
