

The background features a network diagram with white nodes and lines on a purple-to-pink gradient. The nodes are connected by thin white lines, forming a complex web. Some nodes are larger than others, and the overall structure is somewhat irregular and organic. The gradient transitions from a deep purple at the top to a bright pink at the bottom.

Cliff's Edge

By Della Boynton

Cliff's Edge La

Daniel Everett had just ended a bad relationship and was ready to re-introduce himself to the singles scene in a spectacular fashion. When he discovers that his Ex made expensive reservations at a romantic resort in Utah's famed Zion National Park, he's unable to find a reason not to go. The dream of having hot, sex filled nights with handsome cowboys is ruined, though, when he finds that the ranch is under construction, his cabin is being renovated, and there are only two hot cowboys on the premises. One is a foul-mouthed sleaze and the other wants a long romance and a committed relationship. While the lure of no-strings-attached sex with handsome Stanford might make Daniel forget his own standards, he finds that Cliff playing hard to get has its own attraction. When Cliff convinces Daniel to take a ride into the park and explore places where most tourists never venture, Daniel finds his attraction to Cliff growing into something more than lust. When their horses are spooked and bolt, and they find themselves returning to the ranch on foot, Daniel tries to convince Cliff to forget about his need for a committed relationship. As they give in to their passions, though, and Daniel is overwhelmed by his feelings for Cliff, Daniel begins to wonder who is convincing whom. Novella

Once again, Boynton delivers a great character driven book with enough just enough M/M sex to keep the steam set on high without pushing the story out of the way.
