The First Mistake By Sandie Jones

From Sandie Jones, the author of the Reese Witherspoon x Hello Sunshine Book Club Pick and New York Times bestseller *The Other Woman*, comes an addictively readable new domestic suspense about a wife, her husband, and the woman who is supposedly her best friend.

The First Mistake

The First Mistake Book

THE WIFE: For Alice, life has never been better. With her second husband, she has a successful business, two children, and a beautiful house.

The First Mistake Goodreads

HER HUSBAND: Alice knows that life could have been different if her first husband had lived, but Nathan's arrival into her life gave her back the happiness she craved.

The First Mistake Arc

HER BEST FRIEND: Through the ups and downs of life, from celebratory nights out to comforting each other through loss, Alice knows that with her best friend Beth by her side, they can survive anything together. So when Nathan starts acting strangely, Alice turns to Beth for help. But soon, Alice begins to wonder whether her trust has been misplaced . . .

4.5 stars

I read this almost a month ago and I've put off writing a review because there are so many things I want to say about this book but I'm having a hard time trying to find the words without giving too much away about the plot. So my apologies, but this review is going to be pretty vague. I will say though I had so much fun reading this one. If you enjoyed the author's previous novel, *The Other Woman*, I highly recommend checking this one out as I think this one is better.

Alice runs a successful business with her second husband, Nathan, and is also busy raising two children. Life is pretty darn good, or at least it seemed that way until Nathan started acting differently. So Alice turns to her best friend, Beth, for support. And let's just say life is about to get real interesting for Alice whether she likes it or not.

This might sound like a stupid statement but in my opinion whether or not you like this book is going to depend on your reading requirements for the genre. Overall, the most important thing to me when I read a book in the suspense, thriller, or mystery genre is I want to be entertained and just have a fun reading experience and that was the case here. I also like that feeling of confusion in which you think you know what's going on but you also doubt yourself the more and more you read. Is the story perfect? No, but it was one fun and wild ride which is good enough for me. I needed a nice distraction type read because my life is a bit chaotic right now and this book definitely delivered.

Thank you to the publisher and BookishFirst for sending me a free advance copy! I was under no obligation to post a review here and all views expressed are my honest opinion.
