

The background features a complex network of white nodes and connecting lines, resembling a constellation or a data network. The nodes are of varying sizes and are connected by thin white lines. The background color transitions from a deep purple at the top to a bright pink at the bottom. There are also several small, faint white dots scattered across the background.

Inflation targeting - Wikipedia Inflation targeting is a monetary policy regime in which a central bank has an explicit target inflation rate for the medium term and announces this inflation target to the public. The assumption is that the best that monetary policy can do to support long-term growth of the economy is to maintain price stability. The central bank uses interest rates, its main short-term monetary instrument. The history of tax rates for the rich. - slate.com Did the Rich Really Pay Much Higher Taxes in the 1950s? The Answer Is a Little Complicated.

Cubic Formula -- from Wolfram MathWorld The cubic formula is the closed-form solution for a cubic equation, i.e., the roots of a cubic polynomial. A general cubic equation is of the form $z^3+a_2z^2+a_1z+a_0=0$ (1) (the coefficient a_3 of z^3 may be taken as 1 without loss of generality by dividing the entire equation through by a_3). The Wolfram Language can solve cubic equations exactly using the built-in command `Solve[a3 x^3 + a2 x`. How Are Oscar Nominees Chosen? | Mental Floss The voting process that determines the Oscar nominees is a long and complicated undertaking that involves approximately 6000 voting members and hundreds of eligible films and filmmakers.
